

Biswas Pandit

SOFTWARE ENGINEER

9865374729
biswaspandit1@gmail.com

Dedicated .NET Developer focused on building scalable web applications and REST APIs using ASP.NET Core. Proficient in C#, Entity Framework, and SQL Server, with a focus on clean architecture. Committed to delivering robust software solutions through logical problem-solving and a deep understanding of modern software development practices and performance.

Skills

Programming Languages

C#, .NET 8, ASP.NET Core, Web API, Entity Framework Core, Microservices, SQL Server, PostgreSQL, RabbitMQ, Docker, Redis, SignalR, JWT, Dependency Injection, xUnit, Git, LINQ, Swagger, CI/CD

Software & Technologies

Microsoft Packages : Word, PowerPoint, Excel

Education

PLUS TWO - SCIENCE

St. Xavier's College
NEB

BACHELOR'S DEGREE IN COMPUTER ENGINEERING

Himalaya College of Engineering
Tribhuvan University

Project

CLOUD-NATIVE MICROSERVICES ECOSYSTEM

- Engineered event-driven communication using RabbitMQ for decoupled service architecture.
- Developed scalable REST APIs secured with JWT and Identity Server.
- Integrated Redis caching to significantly reduce database latency and improve throughput.
- Skills:
.NET 8, C#, Microservices, Docker, RabbitMQ, PostgreSQL.

REAL-TIME ENTERPRISE ANALYTICS DASHBOARD

- Architected a live data-streaming interface using SignalR for instant UI updates.
- Optimized complex data retrieval using EF Core and compiled LINQ queries.
- Implemented custom Middleware for centralized global error handling and structured logging.
- Skills:
ASP.NET Core, SQL Server, SignalR, Web API, C#, xUnit.
